7	Handling and Storage
7.1	Precautions for safe handling
	Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Normal measures for
	preventive fire protection.
7.2	Conditions for safe storage, including any incompatibilities
	Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which
	are opened must be carefully resealed and kept upright to prevent leakage.
	Recommended Storage Temperature : On receipt store between 10-30°C
7.3	Specific end uses
,	Apart from the uses mentioned in section 1.2 no other specific uses are stipulated.
8	Exposure Controls/Personal Protection
8.1	Control parameters
	Components with workplace control parameters
8.2	Exposure controls
	Appropriate engineering controls
	Personal protective equipment
	Hygiene measure
	Immediately change contaminated clothing. Apply preventive skin protection. Wash hands and face
	after working with the product.
	Eye/face protection
	Tightly fitting saftey goggles; Faceshield (8-inch minimum). Use equipment for eye protection tested
	and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).
	Skin protection
	Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique
	(without touching glove's outer surface) to avoid skin contact with this product. Dispose
	contaminated gloves after use in accordance with applicable laws and good laboratory practices.
	Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU
	Directive 2016/425/EEC and the standard EN ISO 374-1/2016 derived from it.
	Body protection
	Complete suit protecting against chemicals. The type of protective equipment must be selected
	according to the concentration and amount of the dangerous substance at the specific workplace.
	Respiratory protection
	Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with
	multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to
	engineering controls. If the respirator is the sole means of protection, use a full-face supplied air
	respirator. Use respirators and components tested and approved under appropriate government
	standards such as NIOSH (US) or CEN (EU).
	Environment exposure controls
	Do not empty into drains.
